The Annual Report of Private Giving
University of California, Santa Barbara
FOR THE YEAR ENDING JUNE 30, 2007
Every effort has been made to provide a complete and accurate listing of donors and gifts of $1,000 or more received between July 1, 2006 and June 30, 2007. Please accept our apology if a mistake or an omission has occurred.

Every Donor Makes a Difference

Once again, UC Santa Barbara alumni and friends have set a strong pace for The Campaign for UC Santa Barbara by contributing $70.9 million during 2006-07, an increase of nearly 30 percent over the previous year.

This enormous rise in private giving reflects the building momentum generated by the campus's first comprehensive fund-raising initiative, which seeks to raise $500 million for cutting-edge research and instruction, scholarships and fellowships, innovative programs, and new facilities. • We are delighted to report that by the end of the fiscal year on June 30, a total of $422 million had been donated to the campaign, including the largest gift to date: $12.5 million from Virgil Elings, a former UCSB physics professor, and Betty Elings Wells to support pioneering research and education at the California NanoSystems Institute. • Since the inception of the campaign in 2000, UC Santa Barbara’s endowment—now $190 million—has grown by $115 million. Forty-six new endowed professorships have been established during the campaign to attract and retain leading scholars in a wide range of disciplines—including nine new faculty chairs last year—bringing the total to 70. Similarly, 107 new graduate fellowships were created by philanthropic gifts to support outstanding students throughout the campus. • UC Santa Barbara’s remarkable progress toward the campaign goal gives testimony to the vision and generosity of the many volunteers and philanthropists who are honored in this report of private giving. We thank you for your continuing partnership in creating a dynamic future for our campus, and for helping to make UC Santa Barbara an extraordinary place.

Fredric E. Steck, Jr. ’67, Chair
Fredric Steck and Henry Yang in front of the Mosher Alumni House.

Henry T. Yang, Chancellor
UC Santa Barbara Foundation

**Campaign Cumulative Total in Millions**

- 2002: $45.1
- 2003: $50.3
- 2004: $80.1
- 2005: $68.2
- 2006: $55.3
- 2007: $70.9

Below each bar is the total raised for the fiscal year indicated; the number at the top is the cumulative total for the entire campaign.

**Campus Recipients of Private Funds**

- **Academic Affairs**: $7,500
- **Bren School of Environmental Science and Management**: $693,225
- **College of Creative Studies**: $163,386
- **Gevirtz Graduate School of Education**: $2,138,833
- **Humanities, Social Sciences, College of Letters and Science**: $9,863,092
  - **Art Museum**: $156,462
  - **Carsey-Wolf Center for Film, Television, and New Media**: $1,200
  - **Humanities and Fine Arts**: $3,577,799
  - **Social Sciences**: $6,078,414
  - **General College of Letters & Science**: $49,217
- **Intercollegiate Athletics**: $2,140,910
- **Kavli Institute for Theoretical Physics**: $830,874
- **Libraries**: $393,287
- **Marine Science Institute and Natural Reserve System**: $3,057,423
- **Programs and Services**: $7,609,015
  - **Student Affairs**: $882,083
  - **Arts & Lectures**: $1,350,982
  - **Academic Programs**: $98,323
  - **General Administrative and Academic Support**: $5,277,627
- **Science and Engineering**: $41,934,502
  - **California NanoSystems Institute**: $6,940,484
  - **College of Engineering**: $22,077,887
  - **Sciences**: $12,808,103
  - **Technology Management Program**: $108,028
- **Unrestricted**: $2,119,785
- **Total**: $70,951,832*

*Includes gifts, pledges, and private grants received by the UC Santa Barbara Foundation and the UC Regents.*
UCSB is proud to recognize the record number of alumni and friends, as well as corporations, organizations, and foundations, who made generous contributions to The Campaign for UC Santa Barbara in the year ending June 30, 2007. To all of our supporters, especially those listed in the Honor Roll of Donors that begins on page 14, UCSB expresses its sincere gratitude and profound appreciation. On the pages that follow are just a few examples of the ways in which UC Santa Barbara’s many benefactors are helping to support innovation in teaching and research across the academic disciplines.
A new east entrance to UC Santa Barbara is one of many new building projects under way to improve the campus’s physical environment and to enhance teaching and research.

BUILDING PREMIER FACILITIES

An unprecedented era of new construction to build premier facilities equal to the growing reputation of UC Santa Barbara as a leading research university is under way. As Chancellor Henry T. Yang has said, “A world-class university must have a physical presence to match.”

A dynamic new east entrance to UCSB with a gateway arch named for benefactors Jeff Henley ’66, and his wife, Judy, featuring a traffic circle, new lighting, and landscaping, all made possible by campaign donations is in progress. Additional project benefactors are Robert and Trish Duggan, Marvel Kirby ’51, Fredric E. Steck Jr. ’67, and an anonymous donor.

Construction has also begun on the privately funded Carsey-Wolf Center for Film, Television, and New Media, part of a state-funded academic building complex for the College of Letters and Science and the Gevirtz Graduate School of Education that will house the newly established Eli and Edythe L. Broad Center for Asperger Research and the enhanced Koegel Autism Research and Training Center.

The Broad Center will be the first research and training facility in the country devoted to developing treatments and ultimately finding a cure for individuals with Asperger’s Syndrome, a prevalent form of high-functioning autism characterized by difficulties with social communication.

In addition, the Mosher Alumni House recently opened to welcome returning graduates and visitors to UC Santa Barbara. More than $11.8 million already has been raised for the $12.5 million building project.
Virgil Elings and Betty Elings Wells have made a $12.5 million gift to UC Santa Barbara to support pioneering research and education at the California NanoSystems Institute (CNSI). In recognition of their generous contribution, the new building that is home to the prestigious California Institute for Science and Innovation has been named Elings Hall. The Elings and Wells gift is the largest contribution to The Campaign for UC Santa Barbara thus far.

The CNSI is a multidisciplinary research partnership between UCLA and UCSB established by the state in 2000 with the support of the state legislature and California industry. By exploring the power and potential of manipulating structures molecule-by-molecule, the institute is on its way to creating revolutionary new materials, devices, and systems that will enhance virtually every aspect of our lives.

The Elings and Wells gift will significantly advance nanoscience research at the institute as well as in engineering and the sciences. It will provide $9 million in unrestricted support to develop and implement innovative research and education initiatives and create new laboratory facilities. In addition, a $3.5 million endowment for the CNSI will generate ongoing resources to build and sustain state-of-the-art programs.

Virgil Elings is a former UCSB professor of physics and an entrepreneur who made fundamental contributions leading to the scientific revolution at the nanoscale.
The Solid-State Lighting and Energy Center (SSLEC) was launched in March to advance new semiconductor-based energy efficient lighting and display technologies through partnerships with key industry leaders. By the end of June, corporations had already contributed $10.1 million to support the innovative research center in the College of Engineering. They include Mitsubishi Chemical Corporation, Rohm Company, Ltd, Stanley Electric Company, Ltd, and four anonymous corporate donors.

The SSLEC provides a forum for industry members and UCSB researchers to collaborate across several disciplines—materials science, electrical engineering, chemistry, and physics—to address the most challenging problems in solid-state lighting.

The center is working on the development of new materials, devices, and advanced fabrication technologies for consumer electronics and energy. It will focus on energy efficient solid-state lighting, power switching, and clean energy.

Lighting consumes 22 percent of all electricity produced in the nation. The U.S. Department of Energy estimates over $98 billion in energy savings could be realized by 2020 if solid-state lighting can achieve these breakthrough efficiency targets. The SSLEC is developing novel light-emitting diode lighting technologies to achieve an efficiency target of greater than 75 percent.

Cree Professor Shuji Nakamura won the 2006 Millennium Technology Prize for his invention of revolutionary new energy-saving light sources: blue, green, and white light-emitting diodes and the blue laser diode. He directs UCSB’s Solid-State Lighting and Energy Center with Mitsubishi Professor Steven DenBaars.

A blue semi-polar light-emitting diode.
Duncan Mellichamp, emeritus professor of chemical engineering, and his wife, Suzanne, have made a $2 million philanthropic gift to the campus to establish a second cluster of four endowed chairs. The innovative gift will make it possible for UCSB to recruit four leading scholars to launch a major new interdisciplinary academic research initiative to study the effects of globalization.

The Mellichamp Academic Initiative Professorships, which now number eight at UCSB, are important to the future development of the campus. They provide special opportunities to build centers of excellence in carefully selected programmatic areas of rising importance that will change over time. This is the largest gift ever made by a UC Santa Barbara faculty member.

The coordinated clusters of endowed chairs will enable the campus to pursue new fields of scholarly inquiry and to strengthen existing pioneering research programs across disciplines through the recruitment of eminent scholars. With their latest gift, the couple has established a total of nine endowed chairs at UC Santa Barbara, including a professorship in process control in the Chemical Engineering Department, of which Duncan Mellichamp was a founding member.

Initially, the Mellichamp chairs will be awarded as a group to top faculty in the social sciences, humanities, or fine arts with related research interests that will advance our understanding of the growing integration of economies and societies around the world.

Other endowed chairs established during 2006-07 include the Peter J. Clarke Chair for the Director of the California NanoSystems Institute, the Ruth Garland Chair for the Director of the Center for Stem Cell Biology and Engineering, the Leadership Chair in Computer Science, and the Veeco Chair in Engineering and Science.
The UCSB men’s soccer team claimed the 2006 NCAA National Championship with a victory over UCLA and was saluted at various events, including a rally in Harder Stadium attended by campus and community supporters.

Shortly thereafter, an anonymous benefactor contributed $1 million to UCSB’s men’s soccer program, of which $800,000 will fund an unrestricted endowment for the winning team.

Men’s soccer is considered one of the top programs in the country and has advanced to the NCAA Tournament for the past five years.

UCSB’s Intercollegiate Athletics program includes 19 teams that compete at the NCAA Division I level and is considered a leader in the Big West. It has won the league’s Commissioner’s Cup six times in the past seven years, an honor given to the all-sports conference champion. The National Association of Collegiate Directors of Athletics also consistently ranks Gaucho athletics among the top 100 NCAA Division I programs.

The graduation rate for UC Santa Barbara student athletes is significantly higher than at other public institutions within the division.

Top: UCSB senior midfielder Brennan Tennelle (in the air) with sophomore midfielder Ciaran O’Brien (No. 10) during a soccer match with Gonzaga University. Above: Junior forward Nick Perera (No. 14). Right: Senior forward Tino Nuñez.
Arts & Lectures received a total of $1.3 million from a growing number of generous benefactors during 2006-07, including five donors who each pledged $100,000 over four years to build a foundation of support that is critical to providing exceptional public programming at UCSB.

Arts & Lectures promotes the arts as an integral and necessary facet of education that elevates the human spirit and provokes the imagination, inspires personal discovery and intellectual inquiry, and sustains an inclusive and diverse community. It presents performances featuring touring artists from all over the world—first-rate dancers, classical and world musicians, performance artists, and theater companies. It also screens films—international cinema, independent films, documentaries, and the best Hollywood movies.

In addition, Arts & Lectures makes the performing arts available to broad segments of the community, many of whom would have no other opportunity to experience such programs.

Its Artists-in-Residence program includes master classes for serious young artists, lecture demonstrations, open rehearsals, and classroom discussions at UC Santa Barbara and in local schools.

Annually, more than 17,000 people share in Arts & Lectures’s educational and cultural resources through free outreach programs.

“The Peony Pavilion,” a dazzling 400-year-old classical Chinese opera, was performed last fall in Santa Barbara by the Jiangsu Province Suzhou Kunqu Opera Theatre of China. The epic love story was adapted and produced by UCSB Professor Emeritus Kenneth Pai, a leading Taiwanese literary scholar and contemporary Chinese novelist, and co-sponsored by Arts & Lectures.
Recognizing Distinction

Private gifts are increasingly important in maintaining the quality of UCSB’s mission of teaching, research, and public service. Among the principal forms of private support are endowed chairs, which support the educational and research activities of distinguished members of the faculty.

The following generous benefactors have made permanent investments in UC Santa Barbara’s future by establishing endowed chairs.

Honor Roll of Donors

Lancaster Society
UC Santa Barbara is grateful for the extraordinary support of our alumni, parents, friends, and trustees of The UC Santa Barbara Foundation, corporations, and foundations who have contributed $100,000 or more to the university over time. Through their commitment and leadership, these distinguished members of the Lancaster Society have helped build the university’s reputation for teaching, research, and public service. The Society is named for Louis and Winifred Lancaster, civic-minded philanthropists deeply committed to the public partnership that is at the heart of UC Santa Barbara. During their lifetimes, they helped establish the UC Santa Barbara Foundation and worked tirelessly to build meaningful bridges between the university and the larger community. Their vision is sustained through the loyal generosity of today’s members of the Lancaster Society, celebrated for their contributions to an enduring foundation for excellence at UC Santa Barbara.

H = Honorary Alumni * = Deceased
The following generous donors are acknowledged in this report for their support of the University. Their interest and belief in the programs and activities at UC Santa Barbara were demonstrated through personal gifts, gifts-in-kind, and planned giveback agreements. They included UC Santa Barbara in their wills, and they communicated their desire that their gifts continue to grow and excel.

For their generosity, The Legacy Circle honors alumni, friends, faculty, and staff who have included UC Santa Barbara in their estate plans through some form of planned gift. Membership in the society is conferred upon those who have communicated to the university their intention to make a gift through a bequest, charitable trust, charitable gift annuity, pooled income funds, life insurance, retirement fund, or a gift of property with a retained life estate. The following generous donors are providing the legacy of support with which UC Santa Barbara will continue to grow and excel.

Legacy Circle

The Legacy Circle honors alumni, friends, faculty, and staff who have included UC Santa Barbara in their estate plans through some form of planned gift. Membership in the society is conferred upon those who have communicated to the university their intention to make a gift through a bequest, charitable trust, charitable gift annuity, pooled income funds, life insurance, retirement fund, or a gift of property with a retained life estate. The following generous donors are providing the legacy of support with which UC Santa Barbara will continue to grow and excel.

Chancellor's Council

The Chancellor's Council was established in 1975 by a core group of donors who believed that ongoing annual support was essential to building and maintaining excellence at UC Santa Barbara. Since that time, it has grown into UCSB's premier annual giving program, recognizing donors of $1,000 or more. These gifts may be unrestricted, for use where the need is greatest, or restricted to support a specific department or program. UC Santa Barbara honors and celebrates alumni, friends, parents, and trustees of the UC Santa Barbara Foundation for their ongoing partnership and commitment to the future of this great university.

THE CAMPAIGN FOR UC SANTA BARBARA

Alumni and friends of the campus who are included in this report are helping to make The Campaign for UC Santa Barbara a resounding success. Already, UCSB has received $422 million toward a goal of $500 million for priority projects and initiatives across the academic disciplines. Following are the overarching objectives for the campaign.

• Premier facilities equal to the growing reputation of one of the world's leading universities.
• Recruitment and retention of prominent scholars through the establishment of endowed professorships.
• Enhanced opportunities for our most talented and deserving students, including more private support for fellowships and scholarships.
• New programs in pioneering areas of cross-disciplinary inquiry.
• Research initiatives leading to discoveries and solutions that improve the environment, enhance the quality of life, and contribute to personal health and well-being.
• Increased support for innovative teaching.
